more information.](#)

**All working in ministry are invited to this
special opportunity to discuss the needs of the
future Church!**

In this rapidly changing culture influenced by emerging technologies, parishes throughout the Archdiocese are trying to find effective ways to engage/reengage families, especially younger families in the area of digital media.

This webinar, panel, and group discussion will provide those in ministry best practices to intentionally meet families in their busy lives of today.

The event will start at 11:00 AM with networking and a complimentary lunch. The viewing of a webinar based on the new book *Digital Ministry and Leadership in Today's Church* will begin at noon, followed by a panel discussion with Q and A.

This event will offer participants an engaging opportunity to talk with your colleagues in ministry about how we can serve in new and more effective ways.

Special thanks to the Catholic Community Foundation for the grant that provided for this professional development opportunity for lay ecclesial ministers.

This collaborative event is organized by:

Catholic Communicators Networking Group, the Association of Coordinators and Religious Educators in the Archdiocese (ACRE) and Youth Ministry Network of the Archdiocese.
